

Cup Tied Players:

We have become aware that some teams are planning to transfer Premier team players onto lower level teams in order to play in the President's Cup. After which these players would be transferred back onto their original team and play in the State Cup.

This is not the intended purpose of the transfer policy.

As a result the decision allowing players to participate in both cups has been changed. They may be rostered to only one team playing in either the State Cup or the President's Cup.

This change is effective as of 9/17/08.
